- Surgery Scheduled
- Pre-op with hospital and surgeon
- Surgery day

Once we have received the reports from the different evaluations, we can submit for approval through your insurance company. The approval process is at the insurance company's pace. It can take several weeks to receive an answer. Keep in mind that each insurance company has different requirements. Some require a 6 month physician supervised diet; this must be completed before we can submit for prior approval. If your insurance does require the 6 month diet, our office has a template that you can provide to your primary care physician.

Once we have received your approval, you will be notified. You may be required at this time to pay a fee for surgery. This will be determined by your deductible and how much has been met. If payment is required, this will need to be paid prior to scheduling a surgery date. We also must receive in writing the approval letter from your insurance

company before we can put you on the schedule. Due to our limited dates/times for scheduling surgery, we are unable to make any guarantees for any exact dates or how long the process will take. We will try our best to accommodate your schedule and get you through the process as quickly as possible.

**\*Depending upon your insurance deductible certain testing may require a deposit**

\*\*Consult fees are due at the time of the consult. Your consult will then be billed to your insurance company. In most normal circumstances, the insurance company will pay all or a portion of these fees. It will be applied to any outstanding balances, deductibles or deposits owed. You are responsible for any fees not paid by your insurance company.

If you have any questions throughout the process,  
contact **Trinity Bariatric and Weight Loss Center** at 706-481-7298.
